

DRYCO's Pavement Maintenance Plans Work For You

Your biggest asset is the one you walk on every day. It's also an expense you might not see coming until it's too late.

Repaving your parking lot can be an expensive process, but if you plan well, it's one you can avoid for years while maintaining a sharp-looking, functional parking lot.

A good pavement maintenance plan saves money. For every \$1 spent in regularly scheduled maintenance, you save \$4 to \$10 in future costs. That adds up.

With DRYCO, we make it easy for you to save money.

What's In A DRYCO Pavement Plan?

Our pavement plans include:

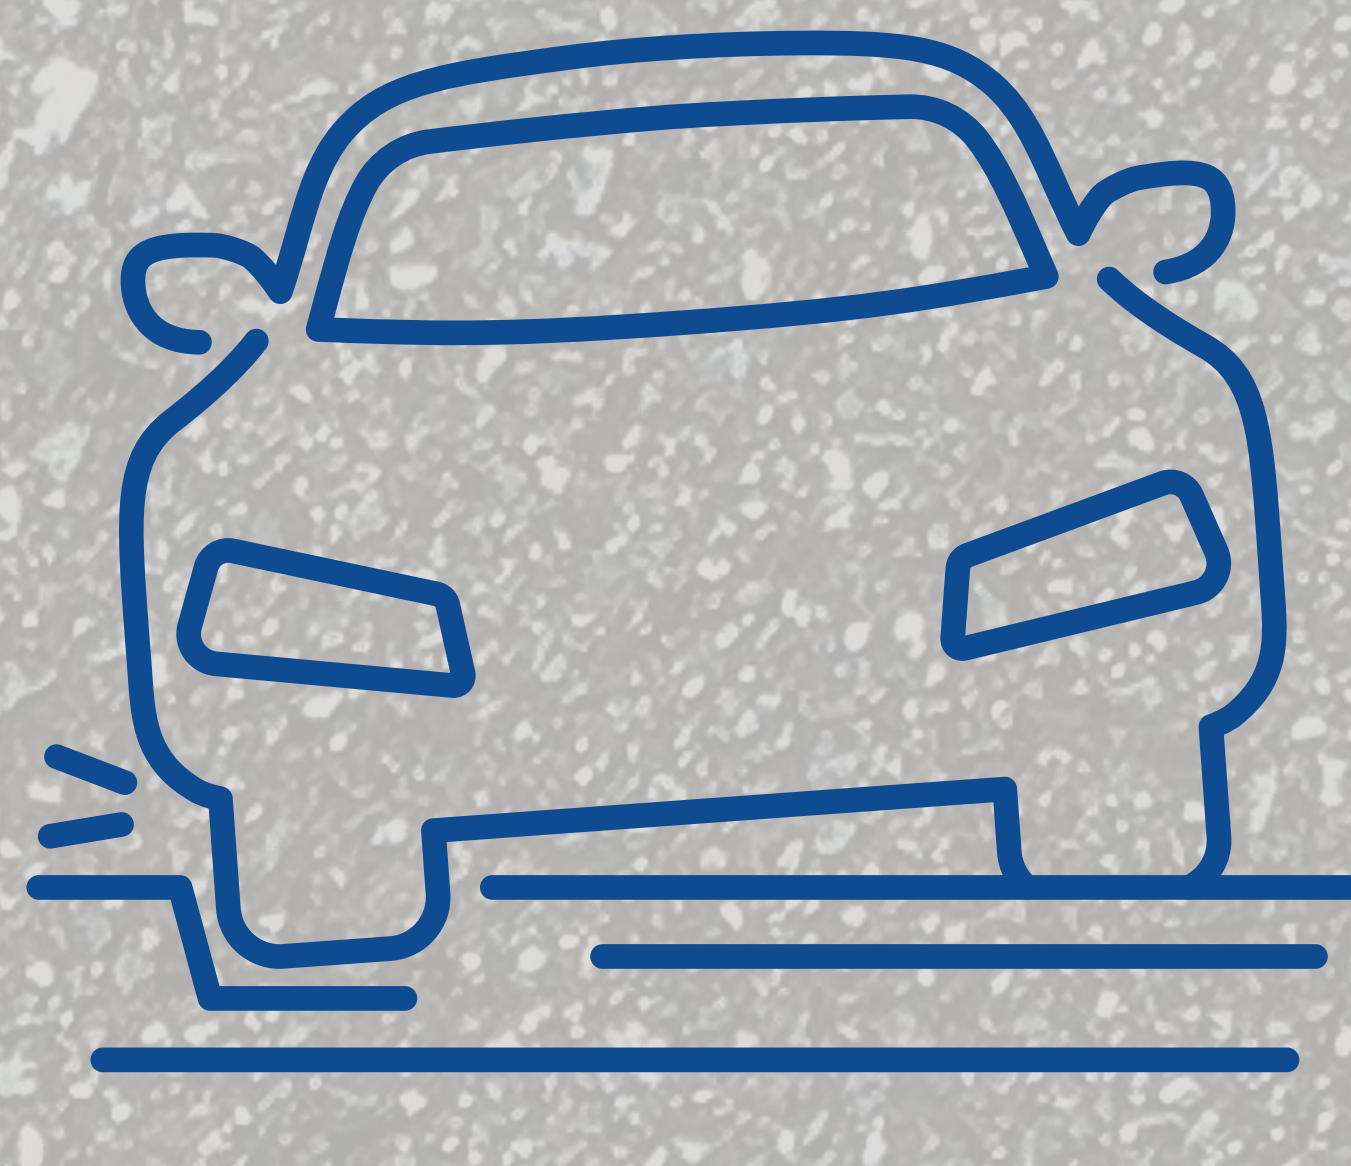

ROUTINE SERVICE CHECKS

We examine your pavement for cracks, potholes, and less obvious signs of wear that could still lead to major trouble down the road.

POTHOLE AND CRACK REPAIRS

We repair any worn pavement immediately to avoid safety issues, more deterioration, and unsightly pavement.

SEALCOATING

[Sealcoating](#) is performed every two to three years to cover hairline cracks and protect your pavement.

ASSISTANCE WITH BUDGETING

We understand how to budget for pavement needs and assist you so you're not caught with unexpected and costly repairs outside your budget.

ACCESS TO PAVEMENT PROFESSIONALS ALL YEAR

If you notice wear, have a pavement emergency, or have a question, [contact us anytime](#) and we'll find the right answer. We're here for every pavement need.

Why DRYCO Is The Right Choice

We understand pavement.

With over 30 years in the business, we know what you can see is only part of the problem. Often pavement deterioration begins beneath the top layer. When you see cracks, it's a sign of a deeper problem.

We combine experience with the latest technology.

We assess your pavement and create a plan that works. Our professional foresight catches problems before they arise.

We have a long history.

We work with top tier property management firms in the Bay Area and Central Valley.

We treat every property like our own.

Our clients trust us because they know we bring our best effort to everything we do.

We prioritize safety.

Safety is built into everything we do, from our team to yours. We're proud of our high safety standards and their results.

A DRYCO pavement maintenance plan is a valuable asset for your pavement.

We will save you money, keep your pavement safe and in top form, and be ready to assist in any way.
